County Active
Transportation Survey

WHAT

Indiana County is working to provide residents and visitors of all ages and abilities more opportunities for walking, biking and wheeling. The Indiana County Active Transportation Plan will prioritize education, actions and projects focused on connections to County destinations including trails and park areas; creating healthier communities; improving economic conditions; and enhancing livability throughout the County.

TOPICS

Public Open House Meetings are being held in the County to gather input on walking, biking and connection improvements. The meetings will be fun, informative, and interactive. Representatives from Indiana County and our Consultant Team will be available for one-on-one and group discussions. Please come prepared to discuss ways to improve active transportation in Indiana County!
